

Name _____

Date _____

I can't wait for our garden to start growing! Is it time yet? Let's do some experiments to figure it out!

1. Do you think it is time to plant your seed? Why or why not?
2. What type of seeds do you have? _____
3. The first step to planting is _____

What tool will you use?

4. What is the temperature today? _____

Look at the temperature for the next few days. Will it be warm enough for your seed?

5. Do our seeds need water? _____
Will they drink if we water them? _____
What else could happen to the water? _____

6. Is it time to plant seeds outside yet? _____
