

Name \_\_\_\_\_ Date \_\_\_\_\_

Is it time to plant our garden yet? How can we tell? Check with your seed packet and use the tools provided to see if we can start planting out in the garden.

1. Do you think it is time to plant your seed? Why or why not?
  
2. What type of seeds do you have? \_\_\_\_\_
3. What important information is on your seed packet?  

*	*

*	*
  
4. The first thing we need to plant a seed is a hole, so try digging a hole for your seed. Did it work? What do you notice?
  
  
  
  
  
  
  
  
  
  
5. Read the temperature and look at the temperature for the next few days. Will it be warm enough for your seed? (Check your seed packet if you aren't sure).
  
  
  
  
  
  
  
  
  
  
6. What will happen if we water our seeds? Will they absorb the water? What else could happen to it?
  
  
  
  
  
  
  
  
  
  
7. Is it time to plant seeds outside yet? What do you think? What information helped you make your decision?
